

SQ Biomass Graphene SS Composite Nonwoven Fabrics Biomass Graphene Protective Face Mask

PRODUCT SPECIFICATION

This product is made of SQ Biomass Graphene SS Composite Nonwoven Fabrics combined with other materials. Biomass graphene is prepared by using natural green plant straw as raw material, through Shengquan Group's independent patented technology-thermal cracking method based on the principle of group coordination assembly carbon evolution (China National Invention Patent Number: ZL 2015 1 0819312.X). Biomass Graphene is an important member of the large graphene family.

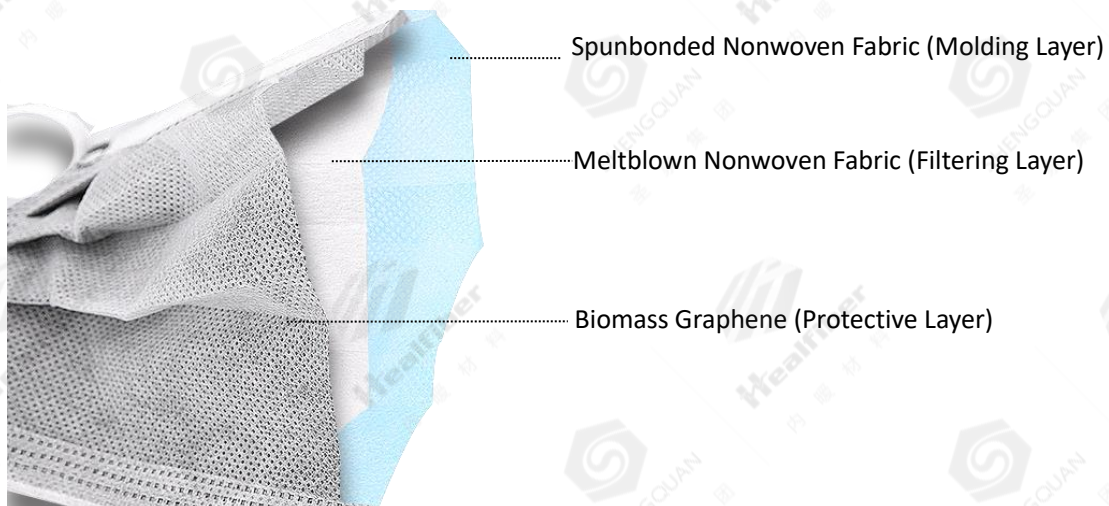

SHAREHEAL is a brand under the Health Industry of Shengquan Group. It holds the health concept of "Keeping Fit by Healthy Wearing", and use independent patent technology to create biomass graphene cutting-edge technological products, aiming to provide high quality wearing enjoyment to the public. We welcome you to experience and offer valuable advice.

Product Name: Biomass Graphene Disposable Face Mask

Product Features:

Biomass Bacteriostatic, Certified Quality, 3-Layer Filtration, Electrostatic Absorption, Adjustable Nose-frame, 3D facial design, Filtration + Anti-bacteria, Double Guard, Lower Feeling Of Press On Ear

Product Structures:

Fitting Instructions:

1. Hold the mask via the ear loops, and ensure that it covers your mouth and nose.

2. Pinch the metal strip or stiff edge of the mask so it takes the shape of your nose bridge.

3. Once the mask is soiled, remove it by holding the ear loops.

Product Certification

America FDA Certification: This biomass graphene product has passed FDA (Food and Drug Administration) certification of USA.

European Union Oeko-Tex 100: Biomass Graphene Healfiber® has passed European ecological textiles Oeko-TexStandard 100 Certification, and its safety performance reaches level I which is applicable to infants.

China National Intellectual Property Administration: Over 100 patents on biomass graphene and the biomass graphene-combined fibers.

User Instruction: Use after Package-opening.

Storage Condition: Store the product in a dry environment and keep it from fire.

Attention: This product is prohibited to use after the expiration of its shelf life, and repeated use is prohibited.

Product Specification: 175mm × 95mm, 3-Layer

Package: 10 pcs/ bag

Manufacturer: Shandong Shengquan New Material Co., Ltd

Manufacture Address: Diaozhen Industrial Development Zone, Zhangqiu District, Jinan, Shandong, China

Executive Standard: Q / 0100sqh040-2020

Note: Pictures and Package here is only for reference, and the actual product received shall prevail.
